LADD, WEBSTER & CO.'S
FAMILY
SEWING MACHINES
ARE UNEQUALLED BY ANY FOR
BEAUTY AND SIMPLICITY OF CONSTRUCTION
—AND—
Efficiency in Working.

A GOOD SEWING MACHINE

SHOULD BE WELL MADE, simple in its construction and easily kept in order; should make a TIGHT LOCK STITCH, alike on both sides of the material, and should sew any and all material that can be sewed.

It should be able to use cotton thread, or silk, directly from the spool, and to sew from coarse to fine, and from thick to thin, with rapidity and without changing the tension. It should also be able to make the tension greater or less on both the under and upper threads, and with uniformity, and should have a *straight* needle, curved ones being liable to break.

The needle should have perpendicular motion—this is absolutely necessary for heavy work.

It should, with a cording and a binder, hem with a hemmer, should stitch, fell, run and gather, and always ready to work.

It should be capable of using the same size thread on both sides of the work, and of using different colored thread or silk above, and to sew [illegible] spool with any [illegible] spools of [illegible] be united.

It should be able to make a long or short stitch, and fasten the [illegible] seam by sewing tightly at the first stitch, [illegible] to [illegible] the needle.

It should have a wheel [illegible] in constant contact with the work.

It should not be liable to get out of order, neither should there be [illegible] wrench to set the needle.

It should [illegible] the [illegible]
It should not [illegible] a ridge on the under side [illegible]

No flag but the Old Flag—the Red, White and Blue,
With the stars [illegible]
[illegible]
Who would not [illegible] the [illegible]

WEDNESDAY MORNING, APRIL 2, 1862

How the News of the Fort Donelson Victory was received

CINCINNATI, Feb 17.—The news of the capture of Fort Donelson causes intense excitement and joy. [illegible] there is a general illumination. [illegible] there will be a national salute [illegible] the heavy guns of the fortification.

Amid the general joy at Indianapolis, one hundred guns were fired.

The news created the wildest enthusiasm in Chicago. The people claimed the victory for Illinois troops.

Springfield, Ill., was wild with excitement. There were illuminations, the firing of cannon, a general ringing of bells, a terrific blowing from the steam whistles, and patriotic speeches.

Fifty flags were flying at Cape Race, and great rejoicing at St. Johns, N. F.

At Pittsburgh there was intense delight; business partially suspended, bells rung, flags displayed and illuminations.

At Detroit the joy was indescribable. One hundred guns were fired, buildings illuminated; the fire department, military, citizens came out in grand procession with flags, banners and torches.

At Columbus salutes were fired, bells rung, bright bonfires blazed, the State House illuminated and also private dwellings.

There was a perfect furore of patriotic jubilation in Boston. There never was so much joy manifested.

Baltimore overflowed with joy. Such news is no where more acceptable than there. The "secesh" are overwhelmed with their defeat.

At Buffalo the news comes in from all quarters of exultation and joy at the capture of Fort Donelson.

Gen. Halleck has issued an order congratulating the troops on the recent victory, and stating that the time and place of future victories had been determined on.

That "beautiful exponent of secessionism yclept the *Portland Advertiser*, says "*all who rejoice at Federal victories are worse than traitors,*"—verily there are a good many of these men in the loyal States.

THE ROAD FROM YREKA TO SALMON RIVER.—The Yreka *Journal* of 22d ult., says that the party which had gone out to explore the route for a road, were unable cross the little Shasta. They reached the crest of the mountain but the snow was so deep and light that they were compelled to return to the camp. On the 21st, the company intended to proceed by the Bogus Creek route. An Indian had come in from the Klamath who stated that the snow was three feet deep in the vicinity of the Lakes, but, "on account of his long associations with white men he was not believed."

A SECESSION LETTER.—A letter was found at Hilton Head from Dr. [illegible] Brust, a surgeon of a South Carolina regiment, who had been serving in Virginia. He said: "Well, at the end of seven days marching and starvation, we got back to Valley mountain, the whole affair having proved a failure in the opinion of our brigade, chiefly from the old fogyism and want of pluck among the Virginians. Never were men more sick of Virginia and Virginians than we are."

SLAVERY IN DELAWARE.—The Delaware *Journal*, in allusion to the effort of Maryland to throw off slavery, asks: "How long, people of Delaware, will you permit the barbaric relic to hang like a mill stone about your necks, to drag you down to shame and reproach, when a single blow would hurl it from your presence, and raise our noble little State up to an equality of power and influence with her free sisters of the North?"

BOUNDARIES OF VIRGINIA.—The prospect is that Virginia will hereafter be bound by the Blue Ridge on the west, by North Carolina on the south, by the Chesapeake on the east, and Delaware [illegible] the Atlantic, and west by the Ch[illegible] will [illegible] as a large State [illegible] made the home of Wise [illegible] county.

LEWISTON.—A letter [illegible] Lewiston, says: [illegible] about [illegible] houses [illegible] Most of [illegible] made of [illegible] frames. It is yet uncertain whether Lewiston is at the head of navigation on Snake river or not.

From the Salmon River Mines.

We have a letter from Robert M. Ilwain to P. A. Marquam, from Salmon River, which will interest our readers. Mr. McIlwain is an experienced miner direct from Washoe.

FLORENCE CITY, Feb 26, 1862.

P. A. MARQUAM—Dear Sir:—I am still operating in company with [illegible] we have [illegible] and we bought [illegible] claims [illegible] The [illegible] work that has been made in any of them was [illegible] and the most $478, and this [illegible] men [illegible] and two men.

[illegible] like a large basin surrounded by mountains, dotted with small hills and ridges, separated from each other by gulches and ravines, which [illegible] In those gulches the pay [illegible] found. It runs in leads along the bottom of gulches and ravines, from four feet to fifteen feet. The gravel or pay dirt is principally composed of decomposed quartz and small washed boulders, which indicate more wash than [illegible] surface of the ground would appear to show. The pay dirt varies in depth from one to four feet, and the richest leads [illegible] worked out, even with a rocker this summer. Outside of these leads [illegible] that would pay very well if it could be sluiced to any advantage, but there is no water for that purpose, and if there was not sufficient fall could be had in a number of those gulches to work a sluice. The surface of the ground appears more like a lake or bog than anything I can compare it to. An experienced miner might have tramped here for years without ever sinking a hole to look for gold. It has a very unnatural aspect for a mining country.

In some places in these hills small leads have been found which pay very well for a short time, and if the snow was off I think in this vicinity there ought to be some very rich quartz leads, as the character of the gold shows plainly that it came from quartz, at no great distance.

What may be termed the mining region at this place at present is not more than two and [illegible] way in extent, and outside of this nothing of any importance has been found, although considerable prospecting has been done. Perhaps ten dollar diggings could be found in places, but these are not as general as at Elk City or in Clearwater. The latter looks more like a mining country, and is more extensive unless some more can be found. Here every few days there is a fresh excitement starts about some Dutchman or Frenchman, in some unknown locality taking out their pile as it is termed. Then there is a rush of several hundred out in quest with snow shoes on, for a few days, until they get their feet frozen, then they drop in again as they are able. But still the phantom Dutchman is not found.

Some say they know of good diggings over south of Salmon River, but my candid belief is no one here knows anything about it. It seems natural for some men to try to raise an excitement. I have no doubt but next summer will develop some mines southly of us in the Snake country. From what I hear of that region, it has a better appearance for gold than this.

From what I can learn an excitement is running very high both in Oregon and in California concerning this place, and I am afraid thousands will come here next spring who will wish themselves back again. It may be well enough for old bachelors to come here, as they are not of much account elsewhere. They may be the means of developing this region—for prospecting and fighting the Snake Indians. They can never find a larger or rougher country to operate in. But if they have families and homes to care for they had better stay with them and raise produce for the miners.

I would not stay shut up in a cabin here without society, and not know what is going on in the world for all the gold in these mountains. I remain yours, &c.,

ROBERT McILWAIN.

A FEROCIOUS DOG.—At a recent hog killing in Bethlehem, Pa., a dog became so ferocious at the sight of blood that he flew at his master, bit him several times and attempted to seize his neck when the dog was killed by the person [illegible] repeatedly thrusting him through with a pitch fork.

SCENE IN CONGRESS.—When the official account of the capture of Fort Henry was read in the House, the most tumultuous cheering was heard, while *tears of joy rolled down the cheeks* of the few border State men in Congress. (According to the secesh paper here all these men are worse than traitors.)

THE NAVY.—When the rebellion commenced we had but two or three vessels on the Atlantic coast [illegible] in the Gulf of Mexico. Now we have about two hundred [illegible] and eighty-five [illegible]

O[illegible] SHOOTS.—[illegible] the western waters. [illegible]

Fresh rolls every morning—Rolling to the other side of the bed for a fresh snooze.

Letter from the Dalles

The Town Rays for Salmon—Great numbers on the way there—Others coming back—Parties leaving for Powder and John Day's—[illegible]—City election.

DALLES, March 31, 1852.

I hardly know Mr. Editor whether it is best to write or publish another word to warn the headlong, crazy crowd against going without gold or money to a country that is completely destitute of food, impossible to be supplied, and covered with *eight feet of snow*. It seems to be of no use, but to show your readers that I have collected and written the *facts in former letters* you will please read from the Walla Walla *Statesman* of the 29th inst.

FROM SALMON.—Mr. McBride, of McBride & Rhodes' Express informs us that the numbers are now leaving Salmon river for the lower country quite as numerously as they are leaving this point for the mines. They are compelled to come out on account of the scarcity of provisions, and much suffering is already experienced in the mines from this cause.

There had been considerable sickness in the mines, mostly lung diseases. Five men died at Florence week before last of consumption.

Two or three pack trains had started up Snake river from Lewiston, intending to get to Florence City by way of Salmon river, but were compelled to return on account of the high water.

Mr. McB. advises persons bound Salmonward to wait *until a supply of provisions is first taken into* the mines, as they cannot possibly obtain them there now. It will probably be a month yet before provisions can be taken into the mines. The streams on the road to Salmon are all very high, and there is yet full ten feet of snow in the diggings.

In addition to the above, Mr. McEwan arrived here to-night—thirteen days from Salmon, who says that the snow is eight feet deep there on a level, that provisions are all short, *that a great number are going out*, and that nearly as many are coming out.

A large party is gathering here to start for Powder river in a day or two. That is sensible, for those mines are easily reached, and can be prospected and worked *now*.

The coming of the conventions stirs up the politics. The Union men of Wasco county held their convention last Saturday, and put in nomination a ticket that can't be beat. For Representative, O. Humason; Clerk, Bigelow; Sheriff, White; Judge, Graves; Prosecuting Attorney, Olney; Treasurer, Waldron; Assessor, M. M. Chapman; Coroner, Dr. Bell; County Commissioners, W. C. Laughlin, J. McCracks; Supt. Schools, Fitzgerald; Surveyor, L. F. Carter. Central Committee—Logan, Olney, Reynolds, Mays, Crooks and X. Cue.

The "glorious old democracy" will meet next Saturday and gulp an unusual amount of bad whisky.

To-morrow our charter election comes off, when numerous offices, *barren of profit or honor*, will be dispensed to hungry applicants to serve.

Items from Late Eastern Papers

The Charleston *Courier* of the 15th February says of the capture of Roanoke Island and Fort Henry: "The enemy pushes on flushed with victory. We feel these reverses. We acknowledge them openly."

On Washington's birthday Dr. C. D. Drake addressed ten thousand people at St. Louis. He was formerly a pro-slavery man. He said: "He was opposed to *emancipation* except as a last resort."

Lieut. Turner at Edisto Island says the negroes are asking for arms. They express the utmost confidence that they can use them effectually. They had picked up some twenty old muskets with flint locks.

A dispatch from Washington City says: "This morning's *Republican* says that the private soldier who told of Gen. Stone's communicating with the rebels on one occasion, was a few nights since furiously attacked by a midnight assassin who had burglariously entered his room. The assassin was obliged to yield to superior force."

The Capitol was to be illuminated on Saturday, February 22d, *with gas from basement to dome*. The illumination of private dwellings will probably be requested as a means of distinguishing loyal from disloyal persons. This plan of showing up secesh is a capital one.

The Mississippi prisoners in St. Louis were told that they were going to the Lunatic Asylum at Chicago, which incensed them highly, though hundreds never heard of it. Some of the prisoners affect to deny that over 4,000 prisoners were captured at Fort Donelson.

WHY THEY BURNED THE LIBRARY.—It is surmised that General Pillow burned the State Library of Tennessee just before evacuating Nashville, in order to destroy certain treasonable papers and correspondence filed away within it, which if taken by our troops would have seriously compromised distinguished men in both sections of the Union.

An Irishman who struggled his hardest drawing to get on a new pair of boots, exclaimed: "By the powers! I believe I shall never get them on until I've worn them a day or two."

"Can you return my Love?" asked Jane. "Certainly, sir. I don't want it."

A lady is said to be vastly beautiful when attired in a full set of sable, otter and lynx skins. It is a remarkable thing in connection with this subject how much so more the wearers set in [illegible] to those furnished with handsome furs, than to those not so fortunate.

The Union.

Unfurl our flag—its stripes and stars
Are bright as when at first they rose
Above the rifts [illegible]
Against the [illegible] of their foes

Unfurl our flag—the red of war
The white [illegible]—and well [illegible]
With strong arms every star that rose
And [illegible] in its Union blue

Unfurl our flag—the [illegible] flash
The [illegible]
Has [illegible] the heart of the North
[illegible]

Unfurl our flag—Maine's [illegible] pines
Shall [illegible] California [illegible]
No [illegible] white shall float
Less [illegible] than love of you

Unfurl our flag,—the Union calls
Our blood shall fall ere we yield
One stripe that Washington has loved
One star from that blue [illegible]

Linn County Union Convention.

The Linn County Union Convention met agreeably to notice, at Albany on Saturday, March 29th, and organized by calling Joseph Hamilton to the chair, S. T. Church, Secretary, A. H. Osborne, Assistant Secretary

A Committee on Resolutions consisting of Capt John Smith, F. A. Riggs G. H Baber Dr S A Smith, J. P Bickerstow, were appointed, who presented the following which were separately taken up and unanimously adopted.

1st *Resolved* That it is the imperative duty of every loyal citizen and friend of constitutional liberty, to rally to the support of our common country its government and flag under all circumstances and under every administration regardless of party politics

2d *Resolved* That we will not knowingly support any man, for any office whatever, who is not unqualifiedly in favor of the Constitution and enforcing the Laws of the United States under all circumstances and at all hazards

3d *Resolved* That we are opposed to making any treaty with those in rebellion against the government on any other terms than an unconditional submission on their part to the Constitution and Laws of our common country

4th *Resolved* That we approve of the test oaths required by our government before granting any bounty to any person, believing as we do that every loyal citizen will gladly avail himself of the privilege of swearing allegiance to his country

5th *Resolved*, That we approve of the course of our government in stopping from the mails the disloyal journals of Oregon, believing that the *Oregon Democrat*, *Corvallis Union*, and *Jacksonville Gazette* are aiming at the overthrow of our government and the recognition of the Southern Confederacy

6th *Resolved* That we fully appreciate and approve of the united and untiring efforts made by our Representatives in the election of E. D. Baker and J. W. Nesmith to the U S. Senate, and especially do we commend and approve of the patriotic motives that induced the Hon Luther Elkins to record his, the casting vote, which secured to Oregon an able and loyal Representation in the Senate

The following named gentlemen were unanimously elected delegates to the Union State Convention to be held at Eugene City on Wednesday, April 9th, viz:

Hiram Smith, David Froman, Wm M McCoy, James M, Elliott, Levi Fanning, D B Randall, John Smith, A Hannon, O W Richardson, T A Riggs

On motion, the Secretary was requested to furnish copies of the proceedings of the Convention to the Union papers of Oregon for publication.

Joseph Hamilton, Chairman,
S. T. Church, Sec

The Hunter Expedition.—At the last newspaper dates from Kansas, Gen Hunter was at Fort Leavenworth making arrangements for the expedition South, for which Kansas is to be made the centre of operations He has some five thousand men scattered around in his department which he was engaged in collecting, and he was expecting some eight regiments from the east and cavalry from Ohio. It was expected that the Kansas regiments would be filled up, and after receiving adequate supplies he would advance. In this expedition, Gen Jim Lane is to be employed. On the 15th of January there was a resolution before the Senate, in reference to this expedition, to which, in a speech Gen Lane thus referred

"The commander of the Kansas Department that is alluded to in this joint resolution is known to the country (Major General Hunter,) to be as remarkable for his prudence as his gallantry. The object of this joint resolution is to clothe General Hunter with the power specified in it, in case the communication between the Government and Kansas is cut off, as it is liable to be every moment, as it is this moment. There is, however, another reason. Gen Hunter proposes, as I understand him, to separate himself from his base, or communication with his Government, as was Napoleon Bonaparte after his fleet was destroyed in Egypt. The object of this joint resolution is to give to Major General Hunter, when separated from his base and from the Government, the power of receiving and subsisting the loyal citizens of loyal States. It gives him the power, if he believes it good policy, to fill up his ranks with Indians. It gives him the power to feed such slaves as may go into his lines, but it does not give him the power to arm slaves or Indians or loyal white citizens. Now, I do ask that some General may be authorized to receive within his lines the colored people of the slave States. Believing as I do, that that population feeds and clothes this rebellion, I desire our General to invite them to leave off feeding and clothing the rebels, and to feed and clothe us. Give to General Hunter the power asked for in this joint resolution and I answer the Senate, as I answered a distinguished gentleman the other day, that he can have and profitably use thirty four thousand slaves in a column of thirty four thousand loyal citizens and without expense too

A sailor dropped out of the rigging of a ship-of-war, some 15 or 20 feet, and fell plump on the first lieutenant

"Wretch!" said the officer, after he had gathered himself, "where did you come from?"

"An' shure I came from the North of Ireland, your honor."

At a festive gathering a married man, who ought to have known better, proposed the "Ladies"—"as the beings who "divide our sorrows, double our joys and treble our expenses"

Agency Notice.—Mr L P FISHER is our only authorized Agent in San Francisco to receive advertisements, and transact business for the DAILY AND WEEKLY OREGONIAN Office—No 1?½ Washington street, nearly opposite Maguire's Opera House

☞ **Coughs.**—The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to *Brown's Bronchial Troches*, or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. See advertisement

☞ **The Medical and Surgical Institute** of DR. L. J. CZAPKAY is already secured in a position which places it, as well as its proprietor, far above the assaults of envy and professional malice. In the schools in France the highest prizes are often awarded to practitioners in this department of medical science, and they occupy with others an equally lofty position in the profession. Ricord is an illustrious example, a shining light among the philosophical stars of his age in Europe, and Dr. Czapkay has fully equalled him in this country, as a proof of which the Philadelphia College of Medicine complimented him with a Diploma and the honorary ad eundem degree. Selecting this as his field of operation, although qualified as a graduate of the University of Pesth, and late Chief Surgeon of the Hungarian Revolutionary army, for more extended labors, Dr. L. J. Czapkay has bent his earnest attention to the cure of chronic and private diseases, in which he has become so great an expert that he is now regarded as the leader in this branch of his profession throughout the United States, and his portrait and biography are published as matter of interest to their readers in the most exclusive journals. The Doctor's office are at his Medical and Surgical Institute on Sacramento street, corner of Leidesdorff, nearly opposite the buildings of the Pacific Mail Steamship Company, San Francisco. We ask particular attention of our readers to the sworn certificates of remarkable cures in another column of this paper. Persons not wishing to lose time in corresponding, please enclose $10 in their letters and they will get immediate attention to their cases. Address L. J. CZAPKAY, M. D., San Francisco, Cal. From the Oregon Farmer

Miners and the Mines.

Since the publication of our last paper, probably two thousand miners have left here for the mines, and there are still many in our city, besides they have scarcely commenced coming in from the country. Our country friends have a better appreciation of the condition of the country above than those who have come from California, and are not in such haste to reach the snow banks and frozen gulches of the Rocky Mountains. We do not believe that it will benefit the miner to reach the mineral grounds much before May

Our information from above is all to this point "Do not come too soon. Your expenses, your discomforts here will be great; your chances for prospecting will be small. You will be wearied out before the time comes for working." But the miners will rush on This cannot be stopped Two steamers crowded with miners and their supplies leave our wharves every day; and boats, with adventurous crews, are pushing up the river every day. It is said that on Wednesday last, some eighty had passed Vancouver These are hauled over the falls at the Cascades, which is a work of much toil, and many boats have been greatly injured in the passage But rush on, is the word, and at present rates the population of the mines will increase from three to five hundred a day from this quarter

Our latest news from the Salmon River mines is to this effect: gold has been found, *in spots*, in great abundance there, and paid well as long as the miners could work Some of the best claims had become less profitable than at first Wiser's, which at one time yielded $2,000 a day, now yields, when the holders can work, $100 a day to the man. It is further said that the Salmon River mines are embraced within a tract six miles square; that a large extent of country has the appearance of a mining country, but it has not been prospected; and that the reports that new and rich diggings have been discovered at some distance, are asserted by some and contradicted by others. The impression was general that the country was rich in mineral, which would be developed the coming season

There is a settled conviction that there are good diggings on the head of John Day's River. These are our nearest diggings Men of small means will go there, and though there may not be large strikes, good paying diggings will be found. There seems to be no fear of Indians in that quarter, when there will be miners enough out to meet them. The conclusion is that the late murders there were committed by a few Indians belonging to the tribe on the Umatilla Reservation, who have refused to go into the Agency. Mr. Kirkpatrick has been commissioned to ascertain all the facts in this case, and recommend a course to be pursued towards them. Peace has to be preserved in the upper country, or a war will be made upon them that will result in their destruction Gen Wright has written to some citizens at the Dalles that troops will be sent into the upper country for the protection of the miners.

There are strong evidences that good paying diggings have been found on Powder River, and that men have been at work there all winter The weather on Powder River is not as severe as on the Salmon—the country being much lower Good specimens of gold have been received from the Powder River, and miners have already come into the Dalles for supplies They quietly purchase them and return, not choosing to be very communicative It is understood that pack trains can pass from the head waters of the John Day's to Powder River

Our last accounts represented that Oro Fino and Pierce City were nearly abandoned by miners. It is not, however, believed that the paying diggings there will be abandoned—for there are some paying diggings in that neighborhood But there is a class of miners that will be swayed to and fro as their hopes or reports of new discoveries may direct them Years and years will pass before the gold region will be thoroughly prospected.

We have news from the Pike's Peak mines, that there will be a large migration from that quarter to our mines Pike's Peak mines were never very rich—many of them paid with great labor—and we know several companies engaged in quartz mining there have failed The Pike's Peak diggings are barely holding their own It is a healthy country There are large numbers of people there; some considerable towns, and some farms cultivated Farming land is scarce There are a few fertile spots, but these are now all claimed. We look for a large migration to our mines from Colorado

Captain M. Crawford has gone east to take charge of the escort provided by Congress for the protection of the overland emigration the present year; which, it is supposed, will be very large. Our letters from Kansas say that the emigrating class there have their eyes upon our mines.

Letters from St Louis repeat that a number of small steamers will go up the Missouri River to Fort Benton, the present year, with passengers for Oregon and Washington They will probably reach there in July It is said that it is the design to cross the mountains on the Mullin road by means of horses to be obtained of the Indians, and that a supply at Fort Benton will be provided We hope that this project will be a success

We continue to receive information that miners from Northern California and Southern Oregon will be likely to take a direct route to the mines from Yreka and Jacksonville If a good route can be found in that direction, it will be a saving of distance and expense We note, however, that miners from that quarter are still coming this way—as securing more speed, safety and comfort, while they are pushing to the mining region

The steamers from California continue to come to this point thronged with men for the mines Some steamers have been subsidized to carry miners to Victoria, supposing that when they reach that place they would be likely to go to the Cariboo mines So far this result has not been obtained Nine-tenths of the miners choose to leave Victoria by the same subsidized steamer and come to this place. Probably the Victorians will not realize great advantages from the money they have spent in the attempt to divert emigration from its natural channel

In the upper country, efforts are being made to open new and more direct routes to the mines An effort for this purpose is now in progress to find a direct route from Walla Walla to Salmon River A party to examine the country was sometime since raised at Walla Walla We have not learned whether it has been successful An other scheme is in progress to open a direct route from the Dalles, *via* the Grand Ronde Valley, to the Snake River, and thence to the diggings on the Salmon We have no reliable evidence of its success. If the proposed routes can be opened, they will save much expense to miners and in the transportation of supplies. But at present miners will do well to travel on the well known routes to the mines

In this number of our paper we give a letter from a miner at Walla Walla, to some friends in this valley There is much good sense in it It is addressed to his friends, who are farmers He tells them by all means to remain on their farms the present season and make food—for it will be wanted at high prices—that the farmers' profits and comforts will be certain; while a large portion of the miners, as they always have been every where, will suffer much and be disappointed in their hopes An operator at Oro Fino, who, to-day will be on his way to that place, said to us, "If I had a farm, and knew how to work it, you would not find me leaving my family and going to the mines" We hope miners who go to the mines will do well, the discomforts they will suffer, the labors they will have to undergo, ought to secure them an adequate reward, and to many they will Those that remain on their farms, and pursue a sensible course of farming, will also make money We are quite sure of that
